

Ling 501 Fundamentals of Linguistics

San Diego State University

Schedule # 22322

Fall 2022

TuTh 2:00pm–3:15pm

Room HH-210

This course will serve as a broad introduction to linguistics, building a foundation for further study in the field. The first half of the course will be devoted to introducing the four basic layers of language: **morphology, phonetics, phonology, and syntax**. Next we will turn to **semantics** and **pragmatics**, investigating the ways the people use language to convey meanings. We will then take a broad look at **historical** and **areal linguistics** looking at some of the amazing ways that languages vary across space and time. Finally, with a basic picture of linguistic systems in mind, we will look at **discourse** (language use in texts in dialogs) and **sociolinguistics** (language in its social context). This class has no pre-requisites.
